

ANNOUNCEMENT OF RESULTS FOR THE 6 MONTHS ENDED 28 FEBRUARY 2017
27 April 2017

Donegal Investment Group plc ('DIG') ('Group') reports its results for the 6 months ended 28 February 2017.

FINANCIAL HIGHLIGHTS - UNAUDITED

- Adjusted operating profit increased by €2.0m for the period to €3.5m as a result of the significant improvement in the performance of our seed potato business which recorded a profit of €2.5m, up €2.0m on the six months to 29 February 2016.
- Group revenue decreased by €3.5m, with the majority of this reduction resulting from the cessation of certain potato trading activities in our AJ Allan business. While a significant portion of the Group's revenue is sterling based the negative impact of the weakness in sterling post Brexit has in the main been offset by margin recovery and the Group's management of its sterling exposure during the period.
- Profit before tax and exceptional items for the period was €3.2m, an increase of €2.0m over the six months to 29 February 2016 (an increase €2.9m without a contribution from associates in the prior period).
- The Group currently holds its shareholding in Monaghan Middlebrook Mushrooms as an asset held for sale as its value is expected to be recovered through a sale transaction, and therefore no longer provides a contribution to our share of profits from associates.
- Exceptional costs of €0.3m are related to the ongoing legal case with respect to the Group's shareholding in Monaghan Middlebrook Mushrooms.
- Net debt decreased by €1.6m to €16.4m as at 28 February 2017.
- Non-core asset disposals of €1.6m resulting in a gain on disposal of €0.3m.
- Adjusted EPS increased 13.6c to 30.1c.

H1 2016/17 Performance Review

The Board is very satisfied with the first half performance, with all businesses, on or ahead of plan for the first 6 months of the year. Our produce seed potato business is now benefitting from the initiatives introduced during 2015 and early 2016 and as first advised in our 2015 preliminary results announcement. Our Food-Agri businesses and in particular our speciality dairy business, while continuing with further strong volume growth remained challenged by trading conditions post Brexit as a result of the weakness in sterling.

While Group revenue decreased by €3.5m for the first six months of 2016/17, our operating profit increased by €2.0m to €3.5m, reflecting in the main the continued improvement in the performance of our produce seed potato business.

Summary Operations Review

Produce

Revenue was down by €2.9m to €21.6m with a segmental profit of €2.5m, an increase of €2.0m on the prior period.

The first 6 months of 2016/17 has seen improved trading conditions for our seed potato varieties in key destination markets. Similar to the prior season, while the harvest of seed potato in several European countries has been negatively impacted by weather conditions, the diverse nature of IPM's growing platform has resulted in normal levels of production of seed being achieved.

During the period, AJ Allan ceased providing a trading service to a number of contract growers which resulted in reduced revenue while not impacting the bottom line performance of the produce segment.

The majority of sales generated occur in the months of October to December of any year and have a material impact on the bottom line performance of the produce segment in any twelve month period.

Food-Agri & Property

Revenue from operations decreased by €0.6m to €24.8m. The segmental result for the period was a profit of €0.9m, a reduction of €0.1m on the six month period to 29 February 2016.

Our speciality dairy business continues to experience good volume growth. However with a significant portion of sales being exported to the UK the recent sterling weakness has impacted on turnover and consequently margins. While growth is the ongoing focus of this business, management have had significant recent success in margin recovery which will ensure the business continues to generate a profit.

Our animal feeds business Smyths, again experienced a satisfactory first six months with both tonnage and margins in line with the six month period to 29 February 2016.

In addition, a number of properties located in Donegal were disposed of during the period resulting in a gain on disposal of €0.3m.

Associate

Our main associate investment, Monaghan Middlebrook Mushrooms, through our shareholding in Elst (the holding company of Monaghan Middlebrook Mushrooms business) is now accounted for as an asset held for sale. This business continues to perform very well and although it will no longer provide a contribution to our share of profits from associates, its value is expected to be recovered through a sale transaction.

Please see Note 10, which contains the most recent announcement, 27 February 2017, made with regard to the ongoing legal case.

Finance

The Group's net debt at 28 February 2017 was €16.4m, a decrease of €1.6m on 29 February 2016.

Dividend Policy

As stated in our recent trading announcement of 3 April 2017, the Board has taken the decision to discontinue the payment of dividends for the foreseeable future with the view of, subject to the requirements of the Company's businesses, returning capital to shareholders in the more tax efficient form of a share buy-back programme. The timing and scale of any share buybacks are dependent on the requirements of the Company's businesses, completion of our non-core asset disposal programme as well as the finalisation of the Monaghan Middlebrook Mushrooms legal case.

Outlook

The majority of sales generated by the Group occur in the first half of the new financial year to 31 August due to the seasonal nature of our seed potato business, and to a lesser extent our animal feeds business. Therefore, the Group's first half performance will represent a materially significant element of the Group's full year performance.

The Board expects continued progress in respect of the Group's non-core asset disposal programme during the second half of the year. The Board is aware of speculation regarding the Grianan Estate and wish to confirm the sales process continues and an offer has been received which may or may not result in a completed sale.

The Board is optimistic that all businesses will remain on plan for the remainder of the year and we will provide guidance on our expected out turn for our new year-end 31 August 2017 at an appropriate time later in the year.

(2) Basis of preparation

These unaudited condensed consolidated interim financial statements have been prepared in accordance with international financial reporting standard (IFRS) IAS 34 *Interim Financial Reporting* as adopted by the EU. They do not include all of the information required for full annual financial statements, and should be read in conjunction with the consolidated annual financial statements of the Group, prepared in accordance with IFRS as adopted by the EU (EU IFRS) as at and for the period ended 31 August 2016. The financial information presented herein does not amount to statutory financial statements that are required by company law to be annexed to the annual return of the company. The financial statements for the financial period ended 31 August 2016 are annexed to the annual return to be filed with the Registrar of Companies. The audit report on those EU IFRS financial statements was not qualified.

These financial statements are presented in euro, which is the company’s functional currency. All financial information presented in euro is rounded to the nearest thousand. They are prepared on the historical cost basis except that the following assets and liabilities are stated at their fair value: derivative financial instruments, financial assets classified as available-for-sale and investment property. These condensed consolidated interim financial statements were approved by the Board of Directors on 26 April 2017.

(3) Accounting policies

The following standards, amendments and interpretations were applicable in the financial period beginning 1 September 2016:

- Amendments to IFRS 11: Accounting for acquisitions of interests in Joint Operations
- Amendments to IAS 16 and IAS 38: Clarification of acceptable methods of depreciation and amortisation
- Amendments to IAS 16 Property, Plant and Equipment and IAS 41 Bearer Plants
- Amendments to IAS 27: Equity Method in Separate Financial Statements
- Amendments to IAS 1: Disclosure Initiative
- Annual Improvements to IFRSs 2012-2014 Cycle
- Amendments to IFRS10 IFRS 12 and IAS 28: Investment entities -exception to consolidation.

For all changes to the standards above, the Group has changed its accounting policies accordingly, which did not have a material impact on the financial results or financial position of the Group.

(4) Estimates

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. In preparing these financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied in prior periods (in respect of the carrying value of goodwill, deferred tax, financial assets and liabilities).

(5) Segment Information

IFRS 8 Operating Segments requires operating segments to be identified on the basis of internal reports that are regularly reviewed by the chief operating decision maker (CODM) in order to allocate resources to the segments and to assess their performance.

The Group comprises the following reportable business segments:

- Produce: The growing, sales and distribution of seed potatoes and organic produce.
- Food-Agri & Property: The manufacture, sale and distribution of farm inputs and dairy products and management of food-agri property assets.
- Associates: Associates is comprised of our existing investments in North Western Livestock Holdings and Leapgrange. In the six months ended 29 February 2016, Associates was comprised of our existing investments in Monaghan Middlebrook Mushrooms, North Western Livestock Holdings and Leapgrange. Monaghan Middlebrook Mushrooms was by far the most significant associate. The group's share of Monaghan Middlebrook Mushrooms was transferred to an asset held for sale as at 1 January 2016

Information regarding the results of each reportable segment is included below. Performance is measured based on segment operating profit/(loss) as included in the internal management reports that are reviewed by the Group's CODM, being the Board. Segment operating profit is used to measure performance; as such information is the most relevant in evaluating the results of the Group's segments. Segment results, assets and liabilities include all items directly attributable to a segment. Segment capital expenditure is the total amount incurred during the period to acquire segment assets that are expected to be used for more than one accounting period.

Entity-wide disclosures

Section 1: Information about products and services

The Group's revenue from external customers in respect of its principal products and services is analysed in the disclosures above.

Section 2: Information about geographical areas and customers

The Group has a presence in several countries worldwide. The revenues from external customers and non-current assets (as defined in IFRS 8) attributable to the country of domicile of all foreign operations are noted above.

Seasonality

The Group's Produce and Food-Agri divisions are first half weighted. This weighting is primarily driven by weather and global buying patterns.

(6) Earnings per share

The calculation of basic and diluted (loss)/earnings per share is set out below:

	28 February 2017	29 February 2016	31 August 2016
	€'000	€'000	€'000

The Group's share of results in its associates, for the 6 months ended 28 February 2017 was a loss of €90,000 (29 February 2016: a profit of 721,000, substantially all related to Monaghan Middlebrook Mushrooms. The group's share of Monaghan Middlebrook Mushrooms was transferred to an asset held for sale as at 1 January 2016).

(10) Investment in associates (*continued*)

As previously advised, the Company took a shareholder oppression claim relating to its shareholding in Elst (the unlimited holding company of the Monaghan Middlebrook Mushrooms business) ("**Monaghan**"). The respondents to this claim were the majority shareholders in Monaghan (the "**Respondents**"). The Commercial Court, a division of the High Court, gave judgment on 5 December 2014 in an individual module of the case, being the price at which the Respondents might purchase the Company's interest in Elst (the "**Valuation Module**"). The Court determined this price to be €30.6m. This price was based on a shareholding of 35% in Elst (the "**High Court Valuation Order**"). In separate proceedings, the Court held that the Respondents had an option to acquire 5% of Elst that was held by the Company. This Option has been exercised and the Company's shareholding in Elst is now 30%. On the basis of a 30% shareholding in Elst, the Company's interest in Elst was valued by the Commercial Court pursuant to the judgment of 5 December 2014 at €26,228,570.

After the Valuation Module, the Commercial Court proceeded to a hearing on oppression and the appropriate remedy that ought to be directed (the "**Remedy/Oppression Module**"). On 21 May 2015, the Respondents (being the majority shareholders in Elst) admitted specified and unspecified acts of oppression and on 21 May 2015 the Commercial Court ordered the Respondents to purchase the shares held by the Company in Elst at the price fixed by it on 5 December 2014 (the "**High Court Remedy Order**"). On 5 June 2015, the Commercial Court made an order for costs in respect of the Valuation Module and Remedy/Oppression Module in favour of Donegal (the "**High Court Costs Order**").

The Company appealed the High Court Valuation Order and High Court Remedy Order to the Court of Appeal. The appeals were heard by the Court of Appeal in April 2016. The Court of Appeal delivered judgment on 8 June 2016. The Court of Appeal allowed the Company's appeal in respect of the High Court Valuation Order. It vacated the said Order and remitted back to the High Court for a rehearing on the price at which the Respondents should purchase the Company's 30% shareholding in Elst (the "**Court of Appeal Valuation Order**") (the "**Rehearing**").

The Court of Appeal upheld the decision of the High Court in respect of the High Court Remedy Order save in relation to the precise amount which falls to be determined in the Rehearing.

The Respondents also appealed the High Court Costs Order to the Court of Appeal. The appeal was heard on 7 July 2016 and judgment was delivered on 27 July 2016 allowing the appeal. The High Court Costs Order was vacated and the Court of Appeal directed that there be no Order as to costs in respect of the Valuation Module and the Remedy/Oppression Module (the "**Court of Appeal Costs Order**").

The Respondents sought leave to appeal the Court of Appeal Valuation Order to the Supreme Court ("**Respondents' SC Appeal**") and following that the Company sought leave to appeal the Court of Appeal Costs Order ("**DIG SC Costs Appeal**"). Leave to appeal was granted by the Supreme Court in both applications and the Supreme Court heard the Respondents' SC Appeal on 31 January 2017. The Rehearing was originally scheduled for December 2016, however, it was vacated pending the outcome of the Respondents' SC Appeal.

Judgment was delivered by the Supreme Court in the Respondents' SC Appeal on 27 February 2017, and the appeal was dismissed. Accordingly, the Rehearing will now take place and the Company will be making an application for the setting of such a date (which will take a number of days) at the earliest appropriate opportunity. Given the length of time a Rehearing will take, it would not be expected to take place for a number of months, but it would be expected to be heard during the second half of 2017.

Now that the Respondents' SC Appeal has been dealt with, the Supreme Court has sought legal submissions from both sides on the DIG SC Costs Appeal and a hearing date will be allocated in due course. Costs accrued during the Respondents' SC Appeal will also be dealt with at the same time as this appeal is dealt with.

(11) Asset held for sale

	28 February 2017	29 February 2016	31 August 2016
	€'000	€'000	€'000
Balance at start of period	23,835	-	-
Transfer from investment in associates	-	23,835	23,835
Balance at end of period	23,835	23,835	23,835

As outlined in note 10, as a result of the Court of Appeal decision to uphold the High Court Remedy Order, the Group's share in Monaghan Middlebrook Mushrooms was transferred to an asset held for sale as at 1 January 2016, as its value will be recovered through a sales transaction. Accordingly, we are no longer accounting for a share of profit in Monaghan Middlebrook Mushrooms from that date.

The asset held for sale is not held at market value and was accounted for using the equity accounting method up to the date of transfer from investment in associates. A valuation report commissioned by Donegal Investment Group which values the Group's shareholding in Monaghan Middlebrook Mushrooms at an amount significantly higher than its current carrying value.

(12) Exceptional items

Exceptional items are those that, in management's judgement, should be disclosed by virtue of their nature or amount. Such items are included in the statement of profit or loss and comprehensive income caption to which they relate and are separately disclosed in the notes to the Group Financial Statements.

The Group reports the following exceptional items:
